

**Stichting
Ontwikkelingsmotoriek
Niek Brouw**

Newsletter July 2022

Dear,

In the previous newsletter you could read that the new name for the foundation was known. Now we can report that the name has officially changed. Henceforth we will be called: Stichting Ontwikkelingsmotoriek Niek Brouw. The articles of association are signed at the notary. The new name is registered with the Chamber of Commerce. The name has also been changed at the bank and you will see it appear when you donate. The Logo has been chosen and can now also be seen on the entire website.

**Foundation
for Motor development
Niek Brouw**

**Fundación
para el Desarrollo Motor
Niek Brouw**

In this way, the underground work from the midwinter period is gradually coming out.

This will also be shown on the website in the coming months. We are busy describing the developmental motor skills, so that it is also clear to people who are not familiar with Niek's work what this can mean for them.

We have done a test with improving the image and sound of the old Betamax video tapes, in which Niek has laid down the basis of his ideas. That test is very positive, so we decided to have all Betamax videotapes improved.

With Vitaal and Niek and Martine we are working intensively to form a joint basis for Niek's work. To this end, we have frequent consultations and are increasingly collaborating. This gives a broad base of support,

which gives the work of the foundation "distributing Niek's work throughout the world" a solid foundation.

The foundation has made the mp4s of the professional course AVG-proof for the benefit of the new therapists.

We are now well on our way to archiving and upgrading all sheets (handouts and slides) ever used by Niek in his courses.

In the near future we will be working on creating texts for the website. The website will also change in other areas. So, check back in the fall!

Regards,

Valerie van Burk, Mim van der Meij and Rens Looij
