

Dear,

We are in a birth time. Moving out of your being into the outside world, you exist, and the outside world exists. That is a whole process, such a birth. Once born you can take steps. This also applies to us as the foundation board, of course.

Website

Underground we are busy describing the developmental motor skills, a childbirth, which will gradually be available on the website when the child arrives.

Niek gave a kick-off meeting for those interested who want to be trained in developmental motor skills on October 2nd.

As board members we were also invited to attend. We also use what Niek has said there for our website.

New therapists

The start of new therapists was also quite a process. The kick-off meeting was the birth of a lot of work done by Niek and Martine, Vitaal and the foundation.

As a result of the kick-off meeting, 8 people have registered so far.

Marjan Simons will supervise the course by, among other things, organizing meetings to practice with each other, to be able to ask questions and to bring in own patients.

As a foundation, we are very pleased that this process can start. The foundation's goal, the dissemination of Niek's ideas, will be stimulated by this.

International

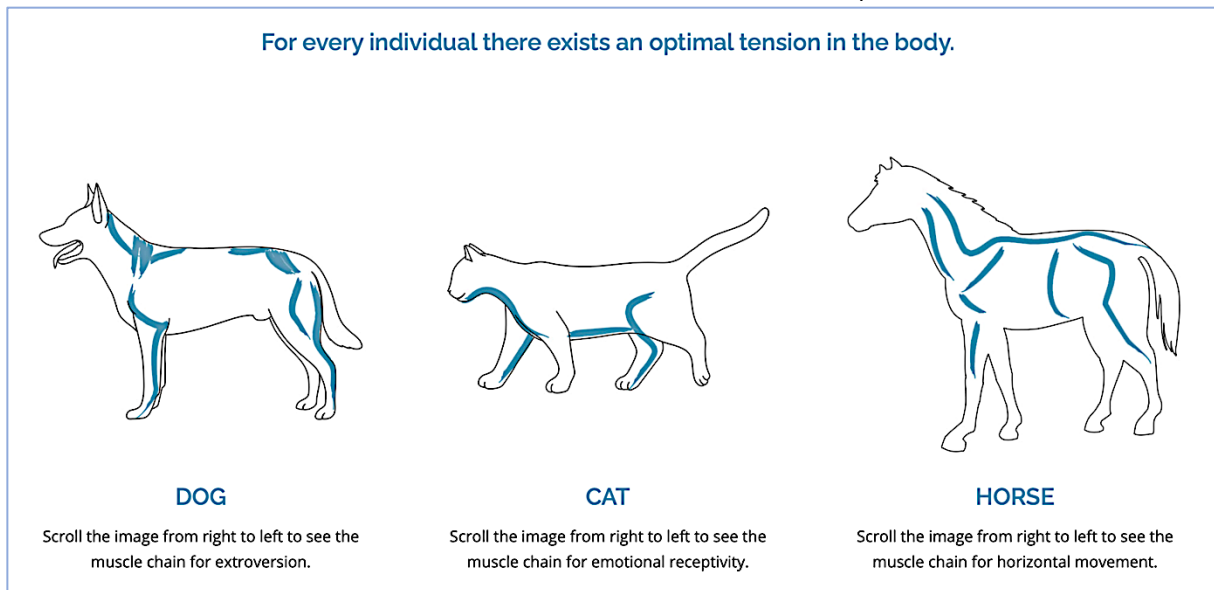

There are also international births to celebrate!

- In America we are in contact with Julie Waters, therapist in the developmental motor skills of Niek (<https://juliewatershealingarts.carrd.co>).

Julie is busy digitizing the courses that Niek has given there. Perhaps we can also put these in our archive in the future.

In addition, she has been given access to our archive, so that she can use the sheets that Niek has developed for her courses.

- Rob Erteman (<https://roberteman.com>), veterinarian who works with Niek's developmental motor skills with animals, has, together with Niek and a female illustrator, visualized the muscle chains of dogs, cats and horses. The intention is also to illustrate how you can treat animals based on developmental motor skills.

- Finally, books and lectures are regularly ordered, not only from the Netherlands, but also from America and the Czech Republic, for example.

Regards,

Valerie van Burk, Mim van der Meij and Rens Looij
